# FIDIC Global Infrastructure Project Awards

These awards recognise, highlight and reward the achievements and successes of consulting engineering member firms across the globe and the important impact their projects have on social, economic and environmental quality of life around the world.

Project submittals should demonstrate, in addition to the quality of the design and construction and positive economic impact, how their project addresses environmental and social safeguards, sustainability, benefits and impacts on society, UN SDGs and climate change effects. Projects of all sizes (large and small) will be considered.

## **FIDIC Global Infrastructure Project Awards**

entry deadline: 7 June 2024 at 17: 30 CET

Welcome to the start of the process for submitting your entry to the FIDIC Awards platform. As you will see below you can choose the awards category you wish to enter.

Depending on the time of year and the opening and close dates you can select from:

- FIDIC Global Infrastructure Project Awards
- FIDIC Future Leaders Awards
- FIDIC International Contract Users' Awards
- FIDIC Member Association Excellence Awards

You will be asked to complete the entry name. Depending on the award you are entering this should be either your full name, the name of the project, the name of the company etc. This name is the most likely field to be used to advertise, promote and be the text that is provided on the trophy, so please complete it carefully.

Entry name

Please provide entrant contact details so that if FIDIC has any enquiries about your submission it can contact you for clarifications. These details will also be used to send communications about successful candidates, projects, awards ceremonies, attendance etc. to you.

First name

Last name

Job title

Entrant Company or Business name

Country in which the Entrant is domiciled

Phone number

Please identify the nature of your business and how you engage with FIDIC

- Government
- Financial institution
- International Finance Institution and/or Multilateral Development Bank
- Insurance and risk management
- Consultant
- FIDIC Member Association (MA)
- FIDIC Associate Member
- FIDIC Affiliate Member
- External stakeholder
- Media/Press
- ...

Project Award nominations are open to firms that belong to FIDIC Member Associations, Associates or Affiliate members that have provided consulting engineering and project management services on projects of all types and all sizes.

More than one engineering firm may be recognised for the same project. However, the firm submitting the project must comply with the afore mentioned membership requirements.

All submissions should be endorsed by FIDIC Member Associations or Associates based in the country where the project is located or where the office of the firm making the submission is located. Where a submission is made without a supporting letter it may still be considered by the judges but the lack of endorsement will be considered in their deliberations.

There is a limitation in nominations of maximum 15 per country. In case more than 15 entries have been received from one country, the MA will be asked to list the 15 projects the judges should consider, entries with letters of support will be prioritised.

FIDIC is most interested in considering “recent” projects the final phase of which was completed within the past year. For example, it is expected that design projects which are submitted for consideration will have been constructed and in operation generally within the past year.

Entries for submission shall comply to following information:

- Project name, total investment, location, client name, name of firm, office location
- Executive representative of member firm as well as point of contact for submission and information
- Project description/project abstract addressing excellence of project, role and general scope of engineering firm. Abstract in 120 words maximum.
- Confirmation from the client that they consent to information provided and thus support the submission.
- 5 pictures of the project in high resolution.

I understand the above and will submit the project(s) in accordance with these requirements

I agree

Project name

Please note that the name entered in the project name box is as it will appear on any collateral and the Award. For this reason please double check to ensure this is correct

Project country

The project country should be reported as the country in which the project is located if the project involves physical infrastructure, whereas if the project is service based/investigatory/a study then the project country should be reported as the country where the greatest monetary value was recorded.

Project location

Please provide the exact location of the project within the country this could be by city, region or ideally using a geo location.

Year of project completion

10 words

Year of project completion in the following format 1920, 2024 etc

key aspects of the project

- Sustainability
- MDB project
- Planning
- Design
- Construction services
- Design and build
- Design, build and operate
- Maintenance management
- Resilience
- Environment

...

key sector of the project

Wastewater, Water and/or Water Resources

Transportation
